

## Findley Urges NATO 'Partnership' With Western Europe

"In my view, the most important recommendation that our fact finding mission made dealt with the fundamental structure of NATO. We suggested that President Johnson take the lead in shifting it from the leader-follower basis, which was inevitable when NATO was formed in 1949, to one true partnership."

Congressman Paul Findley, chairman of the NATO fact finding committee for the U.S. House of Representatives, was the speaker Friday noon before the Jacksonville Rotary Club.

Findley just returned from Paris with several other GOP Congressmen after inspecting NATO facilities and examining the U.S. role in NATO affairs. The committee reported to President Johnson following their return.

"Western Europe is vastly different today, compared with 15 years ago, and many of the other nations in the alliance are willing and anxious to take part in weapons control, technological development and manufacture. If we insist on dominating the alliance and fail to share basic decisions, NATO will fall apart."

"It is in our national interest to find a way to bring the talent and other resources of western Europe into a unified system with our own. Up to now, we have treated our friends and allies as if they were irresponsible children — not to be trusted."

"France has been building its own nuclear weapons system in recent years, and we have resisted every step of the way."

## Local Group At Kiwanis 50th Anniversary

Five families from the Jacksonville Kiwanis Club are returning from New York City where they attended the Golden Anniversary Convention of Kiwanis International, held July 4-8. The theme of the convention was built around the 50th anniversary of the founding of Kiwanis back in 1915.

In attendance were the families of Mr. and Mrs. A. W. Applebee, Mr. and Mrs. Jack W. Gillespie, Mr. and Mrs. H. Hinderliter, Carroll Rexroat, and Mr. and Mrs. J. Merle Wade.

More than 18,000 Kiwanians and families from throughout the U.S., Canada, Mexico, western Europe, the Caribbean, and the Far East gathered in New York for convention sessions in Madison Square Garden. Resolutions which were adopted by delegates will be the basis for the organization's 1965-66 community service programs.

Local delegates were president Jack Gillespie and president-elect Hobie Hinderliter.

"Kiwanis Day" at the World's Fair was observed Tuesday. The Illinois-Eastern Iowa District of the organization held their own banquet that day at the Top of the Fair restaurant.

Principal convention speakers were Edward B. Moylan, Jr., president of Kiwanis International; Dr. Norman Vincent Peale, religious leader and pastor of Marble Collegiate Church; George Murphy, senator from California; Jean Lesage, prime minister of Quebec; Thomas P. Ewbank, president of Circle K International, the service organization for college men; and Brad F. Anderson, president of Key Club International, the high school service organization for boys.

A. W. Applebee also attended executive meetings Saturday and Sunday preceding the convention.

## JET LANDS SAFELY WITH 83 ABOARD AS WHEEL JAMS

CHICAGO (AP) — An Eastern Air Lines jet with 83 persons aboard landed safely at O'Hare International Airport today after hovering over the field more than an hour with a jammed nose gear.

The plane, Eastern's flight 464, landed in a rainstorm with the nose wheels still retracted. The plane tipped forward on its nose after it had almost stopped, causing slight damage to the forward end.

Airport officials said none of the 78 passengers, all strapped in their seats, or the crew of five suffered injuries.

The plane arrived over O'Hare after a flight that originated at Miami, with stops at Tampa and Jacksonville, Fla., Atlanta, Ga., Louisville, Ky., and Indianapolis, Ind.

We should now face the fact that France is a nuclear power and work in close cooperation with the French to develop better weapons and better uses, both peacetime and military, for nuclear power.

"Today, we continue to insist that we should have exclusive control of all the major nuclear strategy for the free world. The time has come for us to encourage the establishment of a nuclear defense system owned jointly by all the nations of NATO, or as many as are interested."

"The U.S. would be a partner with 14 nations in developing, building and paying for this system. We would, of course, continue to own and control whatever seemed best as separate national weapons systems, but we would share in the ownership, control and cost of the NATO system."

"If this NATO nuclear force is established, I believe the desire on the part of individual nations to develop their own separate nuclear weapons will be sharply reduced."

"Certainly, we must face the simple fact that every industrial nation will ultimately want to participate in the vast and exciting opportunities in nuclear development that lies ahead. We cannot keep them from it."

"France, under De Gaulle's leadership, is striving for as much independence as possible. Surely we can understand this aspiration. The fact that De Gaulle thinks our policies in Kiwanis International, held July 4-8. The theme of the convention was built around the 50th anniversary of the founding of Kiwanis back in 1915."

## Ask Kiwanis Help

Jacksonville's service clubs and other community organizations are needed to assist in the programming of activities and services for the new public housing units which are soon to be constructed, according to William M. Cole, director of the Morgan County Housing Authority.

Cole (center), who spoke to the Jacksonville Kiwanis club Thursday noon is shown with L. Fred Turner, secretary of the housing authority, and William I. Fay, attorney for the authority.

"Experience has shown that the more a community cooperates with public housing, the more successful are the programs," Cole said.

In Jacksonville two sites for family units are being planned along with one site for elderly persons. The first with 64 family units is being prepared on East Walnut street, and the second with 44 family units is planned for an area bounded by North Sandy street, West Dunlap, North East street, and Lafayette avenue. The third site for eligible elderly persons will have units south of Beecher avenue from South West street to Dunlap Court to Anna street.

The public housing program is self-sustaining with no cost to taxpayers, according to Cole. Forty-four House and Home Finance Agency loans help construct the units at slightly more than \$11.00 per square foot. Each unit, costing less than \$16,000, is expected to be used for at least 30 years with little maintenance cost.

Nominal rents are charged at approximately 21% of a family's income with a \$4,200 annual income limit.

The Morgan County Housing Authority is controlled locally, as are all such administrations except those in Indianapolis and Los Angeles. Instead of taxes the housing authority pays 10% of shelter rents to local and state governing bodies.

The area's first housing authority which began in 1941 was discontinued during World War II. The present authority was established in June, 1964 with approval by the city council and the county commissioners.

According to Cole, the authority has no program budgets and must rely on the community for schools, senior citizen clubs, homemaking instruction, youth administration, day care programs, and other such activities. However, space will be provided at the three sites being developed for such programs.

Guests at the meeting were Don Bringham, Robert Reuck, and Harry Ruedi.

Mr. Keltner is very active in community and civic organizations and has worked with both physically and mentally handicapped children. He has worked at Great Lakes Naval station in the swimming program for the handicapped in 1964, and for many years has been an instructor and coordinator of National aquatics schools throughout the midwest.

At the present time, he is chairman of the Decatur Y. M. C. A. membership and health and physical education committees, chairman of the recreation committee; the safety policies and the public health committee of the Association of Commerce; member of the board of directors of Council of Community Services and a member of Kiwanis philanthropic committee.
